I will speak from those words in the chapter which I read: "Whereupon, O King Agrippa, I was not disobedient unto the heavenly vision." I like these noble words, because they are truly triumphant words. They are the words of one who is looking jubilant and triumphant tone to the whole continually tending to, of something which God, and that the coming to God is the plaining, and they go about through the world lamenting, and they go about through the world almost apologizing to other people for being Christians. Then he knew that that in the service of that Master would come that which was best for him in the world; that his life before had been a failure should bring forth all his powers and make him the man that God intended him to be. It seems to me we cannot too clearly see the genius of the Christian life as it is given to us there in the vision that was shown to St. Paul. It was not merely that he was a sinner, that he had certain duties he had been neglecting; but it was that there was one great secret of power which he might obtain by putting himself in constant personal con-

The coming of Jesus and His rescue of our nature always seems to me to be like this. He, strangely enough, gave his sympathies to the South rather than to the North in our late war, and boldly rushed into print in defense of Gov. Eyre, the tyrant and cold-blooded executioner of the black men of Jamaica, because he heartily believed him to be in the right. His own mother was of West Indian extraction. But his late visit to this country to see a son, located on our Western prairies, afforded an opportunity to place himself right with our people. No one that knew him could doubt for a moment his downright honesty and sincerity, or fail to be impressed with his abundant information and brilliant genius. His wife's dedication of the book is as delicate and charming as their love for each other was intense and undying. The abridgment of the English edition is a great improvement. It has omitted nothing of importance to a full interpretation of his life, and has the body of his delightful letters. The book is both interesting and instructive, and will hold its position readily beside the very popular biographies which have lately

WOMAN'S FOREIGN MISSIONARY SOCIETY.

The annual meeting of the New England Branch of the Woman's Foreign Missionary Society, recently held in Boston, was a profitable as well as enjoyable occasion. Notwithstanding the severe storm on Tuesday, the house was well filled at each session. The careful attention given to all the exercises of the day, with the general note-taking by the delegates, showed the deepening and widening interest in the work of the Society.

"Three requisites to success in our work for missions" were considered as follows: Miss M. M. Loomis, of North Manchester, Conn., urged the necessity of prayer for wisdom to guide in all our efforts. Mrs. Taplin, while admitting that prayer was the first requisite in all work for the Lord, by many forcible arguments impressed her hearers with the fact that prayer without faith can be of little avail. Mrs. A. C. Knight, of Wilbraham, presented the with serious attention. closed the morning session. Scripture reading by Mrs. Beeman, of St. Albans, Vt., prayer by Mrs. Cushman, of Portland, Me., and singing by Mrs. Annie P. Clark, composed the opening exercises of the afternoon.

The work of the society in the various Conferences in our Branch was reported by the secretaries who have its supervision. Mrs. Rev. J. W. Guernsey presented the report for Vermont Conference. Mrs. Rev. Dr. Barrows' report for the New Hampshire Conference, was read by Mrs. Taplin, after which a consecration hymn was sung by Mrs. Clark.

But, say they are twice too large, and then Methodism spends \$1,900,000 for tobacco every year, almost \$2,000,000; say, if you will, that they are over three times too large, and make the annual tobacco money of Methodism only \$1,-299,000, and yet what a shameful, not to say wicked, waste of the Lord's money!

I can name Methodist preachers who smoke from three to twelve cigars per day! How small a part of the tobacco money of the Church would pay our missionary debt! The revival work goes bravely on in this city. There is something amusing, if it were not so serious, in the assembling of a handful of cultivated people whose sympathies and activities lie entirely outside of the wide circles affected by the evangelists, meeting together and asserting to each other in varione forms of expression, that the revival is a failure; that it does not, after all, reach Boston: and that whatever influence does come from it is harmful! All this time thousands are constantly gathering to its services. On the very night, we believe, of such a meeting as we have referred to, one of Boston's most cultivated clergymen, in the same earnestness of spirit, preaching the same Gospel as do the evangelists, addressed in the Taberpacle nearly seven thousand people; not a small section of them the dite of Boston in Clear and Scriptural directions in the sim- who make man the standard. social position and education. THE ANGLICAN CHURCH.

Three events have recently added to the discussions and distractions of the English Church - for distracted it is, in spite of its boasted conservatism, having more internal discords than any other religious body, unless we except its Episcopal representative in our own country. These three facts are the meeting of the English Church Union, a society of High Churchmen, in drawn battle against the Liberation Society, (the latter organized for disestablishment) the annual meeting of the evangelical clergy, and the imprisonment of Rev. Mr. Tooth.

The latter has been the great event of he times in the ecclesiastical world of England. Not only Ritualists, but High Churchmen, generally, have taken side with Mr. Tooth, and the Episcopal clergy of Scotland (noted for their High-Churchism) have united in subscribing

BY REV. W. E. HUNTINGTON.

THE SHUNAMMITE'S SON.

A rich woman in Shunem had be come a cordial friend of the prophet Elisha. Having no children, she had the Great Healer, urged themselves, in pitality. Elisha feels a deep gratitude ought to possess that quality : for the generous affection shown by these Shunammite friends. He wants in some way to repay them. He has no money to give for their love. If he had, money cannot be made an equivalent for real kindness. So he asks if he that the noble woman was suffering an cannot do them a favor. Elisha knows unutterable affliction. that he is respected among the great men of the nation, and therefore asks the woman if he cannot beg the king, or the general of the army, for some not reveal the trouble which had favor to be bestowed upon her or her husband. But this worthy couple had But Elisha did not intrude upon her a that quality which always belongs to true nobility - contentment. She replied, "I dwell among mine own people." She did not care for any other eminence than to be counted good and hospitable among her kindred and friends. They were both happy, and were not longing for civil or military distinction. Yet Gehazi, Elisha's servant, with a keenness of insight that shows him to be more than an ordinary servant, recognizes the childless condition of this kind hostess; and when Elisha seems to be at a loss to know what he can do for her, his servant suggests, "Verily, she hath no child." He knew no gift could give such joy to her heart, or be such a perpetual source of earthly happiness as a child. The prophet is moved to ask this treasure from God for her, and, with the assurance that belonged to him as prophet, he promises her a son. Her boy was just becoming companionable, when, in the harvest field, one day, he was cut mother hastened to Elisha to let him know of her loss.

She went, and came unto the man or God to Mount Carmel. She undoubtedly expected that the prophet could help her, in this hour of grief. If he could do no more, he could certainly speak words of comfort and sympathy. She ordered her servant to saddle an ass, and drive with all possible speed to Mount Carmel where Elisha was now spending some time in devout solitude.

Led as by a blind instinct, in her hewilder ment of grief, she lifted the lifeless child in her arms, and went up and laid him on the bed of the man of God, and shut the door upon him, and went out. In her great trouble. the mother thought at once of the prophet, who had been related to the gift of her child

Yonder is that Shunammite. Elisha saw her before she arrived at his lodge, and directed the attention of his ser vant to her as she approached. LITTLE MISS JORDAN'S EASTER.

BY MISS A. S. SEAVERNS.

Ruth Jordan was only a poor dress maker, and lived alone with her crippled brother in a couple of tiny rear rooms in the fifth story of a tenement house. The hard times had brought grinding poverty to the brave, cheery little woman, and all through the bitter winter weather she had toiled, early and late, to procure the barest necessaries of life for Tim and herself.

But privation and the lack of proper and nourishing food began to show their effects upon her delicate constitution. The effort to climb the stairs to her garret room grew daily more and more burdensome, and the homely face grew paler and paler as the gusty March days slipped quickly away. "Oh, dear! Ruthie, I'm so tired

Can't you tell me a story?" The busy whir of the sewing machine topped suddenly at Tim's wistful,

pleading tone. "I wish I could, dearie. But morrow is Easter, and I must finish this suit for Mrs. Spencer before morntime used to send their staff to perform ing. She will give her work to the wonders. Elisha asked Gehazi to do new dressmaker at the village if I dis-

"I do feel very weary, Tim dear and the slender hand involuntarily pressed her side. "But see what heaps the friends of the Shunammite that only of pleating I have yet to make. So they have wished for so long, and next go together towards Shunem, while the Wednesday - your birthday - I will make a real plum cake."

Ruth tried to speak in her old blithe way, but a hard lump kept rising in her throat, and her voice had a perwan, pinched face of the little invalid. Impulsively she rose from her chair, crossed the room, and kissed him. The poor, deformed child's smile was beautiful, as he caressed Ruth's bright, rippling hair with his tiny hand.

" Tell me once more about Easter, he whispered, "and then I shall have something to think about while you are stitching, stitching, those fussy ruffles," Ruth did not have the heart to refuse ; and kneeling by his chair, she repeated

Tim listened in breathless silence to "Ruthie, do you think I shall be a cripple in heaven?"

"No, Tim, no;" answered Ruth, her eyes dimmed with tears. She could not speak for a moment. Then tenderly and solemnly: " Darling, it doth not we shall be like Him!"

Mrs. Spencer belonged to the Church, and gave much money to benevolent and charitable institutions; but she loved the praise of men: she desired not the adornment of a meek and quiet spirit, but wished to outshine her neighbors in dress and 3 How did the prophet show his display. Poor little Ruth! the sore straits to which she was reduced made the poorest compensation acceptable.

As she sewed on in the stillness, unbroken save by Tim's regular breathing in the inner bedroom, she lived over again the happy days in the past. Yes, even this plain, pale woman of twentyfive had had her little romance. She never was handsome, but her rippling brown hair and expressive eyes compensated for any irregularity of feat are. But Ruth's happiness was soon clouded. Just six months after her engagement, the dear father folded his weary hands across his breast, and "went up higher." Scarcely had the family recovered from the shock, when the fragile, delicate wife passed away, leaving to Ruth, as a most sacred trust, the little two-year old Tim - a sickly cripple. Poor Ruth! The dark days came and went, finding her almost stupefied with grief. Her lover was tender and early marriage, which seemed as deterly." sirable for Ruth as for himself. His business arrangements called him permanently to Europe, and he planned to take the orphan girl with him as his wife. He could not comprehend or sympathize with her instincts of duty, and what he thought a fanatical devotion to her crippled brother. But Ruth was firm; loving entre aty and passionate pleading availed naught. Then came a final hour when, after plying her with every argument, and finding her still determined, he left her with angry recriminations, never to return.

With distended eyes and pallid cheeks Ruth gazed at her lover, and as he left the room without one loving word or tender caress, and angrily slammed the door, she fell in an agony of anguish upon the lounge. There faithful Margaret found her three hours fter; and from that day her once blooming cheeks were colorless; many silver hairs appeared among the brown ripples; and a pathetic, saddened exly people of W., and went to a distant village. AN EASTER STORY.

BY MRS. M. F. BUTTS.

Annt Grace always makes great ac count of Easter Sunday. For weeks before this day of days, quiet, careful preparation is made, and nothing is allowed to mar its joy and serenity.

"Aunty," said I, one brisk March morning, "why is it that you celebrate Easter in such a peculiar way? One would think it was birth-day, wedding day, and all other days put together." " So it is, dear, so it is," she replied

looking dreamily out at the dull landscape; "I was truly born, and truly married, and, I may say, I truly died, one blessed Easter day." "Born, married, and died - all on the same day! Well, I should call

that an experience. Suppose you tell

me all about it," and I drew Aunt Grace to an immense easy-chair, in front of a cheerful grate fire, and seated myself at her feet. "Well, child," she replied, "bring ne your uncle's shirt from my workbasket. I like to have something in

my hands while I am talking." I don't, if the talk is worth any thing," I said, bringing the shirt, basket and all.

"You belong to a generation that loesn't like to work with its hands," said aunty smiling, and beginning to stitch rapidly.

"That is because we work so much with our heads. But please begin your story; somebody will interrupt us within ten minutes.'

"I am going to tell you of an expe rience," said Aunt Grace, "that I rarely ever speak of in these happy days; and I could not bring myself to the task of unveiling it to you, did I not think it would be of value. In considerate in his manner, and for a three months you will be a wife, and time she found sweet consolation in his will enter upon the same path where I companionship; but he was bent on an stumbled and came near falling ut-

"Your uncle John and I." she said were what people called madly in love with each other. We were direct opposites, and found a world of fresh and vivid interest in each other's society. We were absolutely happy together, and could not imagine that any change could ever come. It seemed perfectly logical to conclude that marriage would only increase our joy, and never did a man and woman take upon themselves the vows of eternal fidelity more willingly than John and I."

Aunty paused for a minute, let her hands fall idly in her lap, and gazed into the fire. Presently she said forget this: The more chance there is for happiness, the more chance for misery. The most exquisite flowers pression crept into her eyes. She was need the most careful training. I was imagiproved a blessing, for through his dissolitude at times; willing to make every sacrifice for those I loved, but averse to sharing my treasures with the outward world. He supplied the impecunious ones with money, and the dull ones with brains; he let the lazy ones hang upon him, and never could find courage to set a fellow adrift. His heart was so tender, that it could not resist an appeal to its kindness.

Acknowledgments.

The good people of Greenville, numbering mor than one hundred, came into the Parsonage in Norwich, Conn., one evening, to give their pastor a friendly greeting. After spending the evening very pleasantly by hand-shaking, cordial greeting, smiles nd song, one of our oldest and best men presented the pastor with a purse of more than \$30, as an expression of regard. After a short speech from the pastor, giving thanks for all the good people have done for him, a prayer, and a parting song, all de parted in peace and love.

LETTER FROM WASHINGTON.

The peace that is following our recent political agitation is grateful to all hearts, and we now feel assured that President Hayes will labor incessantly for the good of ou whole country, and that he has the wisdom to discern correctly, the discrimination to choose wisely, the decision to act promptly. and the firmness to hold steadily in the proper course the executive power delegated to him by the people, for the good of all sec-

tions. The members of the new cabinet are giv ing full sati-faction, and show that wisdom was displayed in their selection. Indeed, the great turmoil that usually follows the inauguration of a new administration, seems to be unknown in this. So quietly have things moved on since the 5th of March, tha we who live at the capital are hardly conscious of the change.

The appointment of Hon. F. Douglass, as marshal of the district, created a small ripple of discontent among some of the members o the Washington bar, and an effort was made to prevent his confirmation; but the firmness of the President in refusing to withdraw Mr. Douglass' name, shows that while President Hayes will do all he can for the white people of the South, he will not forget the colored men, nor refuse to acknowledge

Yesterday morning Mr. Douglass entered upon the duties of his office with an ease and a suavity of manner which he possesses in such a high degree as to express plainer than any words the fact that he is superior to the stowed upon him, and the fact that he was born a slave adds to this merit.

Louisiana and South Carolina are still in MOODY who are now holding daily sessions, will find some safe way out of this last difficulty, and then peace will rest on all our land. How plainly can the hand of God be seen leading the destiny of nations as well as the destiny of individuals! As a nation, we should send up to heaven one grand rain of praise for

On Saturday last, how. ever, on account of the sun's approach to the equinox, or from some other cause, we were favored with a first-class snow-storm, that lasted all day, covering the streets and pavements so as to make coasting good, and the hearts of boys and girls beat as merrily as

CATARRH.

TWELVE YEARS OF SUFFERING

Genilemen: — About twelve years ago, while traveling with Father Kemp's Old Folks Concert Trouge as a ten singer, I took a severe cold and was lead at Newark, N. J. The last attack, the severest ever had was terrible. I suffered the most excreciating paid in my head, was so hoarse as to be carcely able to speak, and coughed incessantly. I thought I was going into quick consumption, and I firmly believe that had these symptoms continued without relief they would have rendered me any easy victim. When in this distressing condition, I commenced the use of Sanyounderful medicine gave use the createst relief. This is a poem of more than ordinary merit
opening up the mysterious motives, passions, and
powers of the human soul; the addition, as the
author says, of a page to the great volume portraying man to man. — Dr. Vincent.

This tragedy, based on the life of Saul, the first
king of israel, is an addition to literature. The
production is meritorious, in its conception
audin its execution. There are strong, and the actions are well timed. Especially toward the close,
in the witch scene, has the untor shown his
strength, there the cube measured up to them, not
raitering at any point. The poem ought to find
a hearty welcome among Bible readers and lovers
of pure literature. — Dr. Fowler in Christian Advocate.
